

WEBINAR

Thursday, 18 February 2021
16:30-18:00 CET

The Conference of European Churches
“SCIENCE, NEW TECHNOLOGIES AND CHRISTIAN ETHICS”

Vaccination – Curse or blessing?

A spiritual and theological approach to
COVID-19 vaccination

The aim of this CEC webinar is to inform about the current scientific knowledge regarding vaccination against COVID-19 and to formulate ethical questions. The objective is to provide fact-based information to those responsible in church and society and to give insight into ethical questions from a Christian perspective.
